### NEVADA AND ITS GRAZING LANDS.

The Central Pacific Railroad Company have recently adopted a commendable policy of assisting in the development of this State. Since W. H. Mills took charge of their land matters he has taken the pains to make a thorough inspection of Nevada and its resources and the result has been of the utmost benefit to the State's interests. He has recently issued in pamphlet form a detailed description of the resources of Humboldt county the grazing center of Nevada. It gives the fullest possible information upon the character of the land, the water facilities, the grasses, prices of beef, cost of maintaining cattle through the winter and the profits in the business. These pamphlets have been circulated by the million over the Coast and will result in bringing numbers of settlers and a good deal of ready money into this State. Indeed if the C. P. road continues through their land agent W. H. Mills to keep up the boom of Nevada's resources, there is a chance that the bread cast upon the waters in the shape of a high freight tariff will come back to us again.

There ought to be a regular immigration society in this State to do this very work, work which should have been done years ago. The fact that the company is recognizing the grazing interests of the State as important and permanent and ought to encourage those engaged in this industry. The climate, soil and grass of this State is especially adapted to cattle raising and the fact is becoming more and more recognized on all sides. No man can invest with a surer hope of a heavy return than here in Nevada.

In ten years more the knowing ones predict that the cattle produced of Nevada will over shadow every other interest and the money flowing in from all sides to purchase our extra beef will make everybody in comfortable circumstances.

### THE OLD TIME DISTURBERS.

Just before an election in Ormsby county the regular old fashion disturbers of the county's peace make some pretext or another for organizing a new party. As regular as the sun shines these men come to the front and lift their voices in a howl against every well regulated interest in this county. While professing to be the friend of labor they sight out for their attacks the firms and persons employing the most white men and paying the highest wages.

While professing to be a friend of the taxpayers, they demand that the county offices shall be given to somebody of their own choosing, when the never-to-be-forgotten record states them in the face, that the only time they ever succeeded in getting into power they cost the county several thousands of dollars more per annum than the old regime had cost. The instant these men got into power the difference in the cash balance of the treasury marked their coming.

It is not to be a moment supposed that the people have forgotten these men or the methods which they have been in the habit of adopting to carry out their schemes. They make war upon every man who owns a dollar more than themselves. They hate every man who attempts to develop the country and every other man's prosperity is gall and worm-wood to them.

They pull down but never build, they reap but never sow, and their hand is ever uplifted to strike a blow at the country's prosperity and progress.

Remember gentlemen that this is the United States of America, and every citizen in Carson City who pays his debts and his taxes has the right to live here unmolested in his rights and the laws of the land will protect him from assaults either upon his name or his business.

—Henry Sweeney, aged 15, was arrested in New York Sunday when about to jump from the Brooklyn (N. Y.) bridge. He had been reading of Brodie's successful attempt, and he was anxious to imitate him.
